HARRODS' ROYAL EXCHANGE.

BUSINESS ARRANGEMENTS

OBJECT.—The object of the Company is to supply its Customers with the best goods at the lowest remunerative prices.

HOURS OF BUSINESS.—From 8.30 a.m. tc 6 p.m., and 1 p.m. on Saturdays; closed on all Bank Holidays.

TERMS OF PAYMENT.—Town—Cash at time of purchase or on delivery except where accounts have been opened; Country—Cash with order, except where accounts have been opened. Accounts are opened for the convenience of Customers on receipt of a deposit or banker's or London Trade reference, and are rendered weekly for town, monthly for country.—NOTE.—*1 per cent. Bonus is allowed upon deposits of £20 and upwards, provided each successive deposit be made before the preceding one has been exhausted.* Separate Accounts may be opened for Drapery and Fancy Goods, to be rendered and paid monthly.

CHEQUES.—Cheques and Post Office or Postal Orders should be made payable to "Harrods' Stores, Limited," and crossed "Barclay & Co., Limited, not negotiable."

BANKING.—Deposit Accounts and Current Accounts opened and Interest allowed. Cheque Books issued. Full particulars furnished on application.

ORDERS FOR GOODS.

A Special Staff is in attendance in the early morning to deal with Post Orders, so that Meat, Poultry, Fish, etc., may be sent out by the early carts.

Verbal Orders.—For Customers having large orders to place for Grocery, etc., an Order Office is provided, thus saving them the trouble of visiting the various counters, the utmost care being taken in carrying out instructions. The Order Office is situated in the Royal Exchange in the centre of the building. Orders for Horses, Carriages, Motor Cars, Electric or Petrol Landaulettes are booked at this office. Special terms and prices on application.

Collection of Customers' Orders (Local.)—For the convenience of Customers we have arranged, where Standing Orders are given by Customers for delivery of Goods each morning by our Carmen, that the Carmen themselves can bring back orders, thus ensuring Earlier Delivery than if by the Collectors calling by arrangement.

Order Books for writing orders in duplicate are supplied free. The use of the duplicating book is strongly recommended, but, when writing out orders, none but words descriptive of the Goods required should be used. The embodiment of such quotations as "Please Send," "Kindly Deliver," etc., constitutes a letter which is surcharged accordingly by the Post Office Officials, a procedure which entails delay in the delivery of the letter and in the execution of the order. Orders should never be embodied in letters relating to any other subject requiring an answer.

In order to facilitate delivery customers are requested to give their nearest Railway Station on all orders.

PERISHABLE PROVISIONS.—Customers will find it to their advantage to order Fish, Meat, Poultry, Fruit, Dressed Provisions, separately from the General Orders; this will ensure more prompt despatch. Orders are executed as quickly as possible, but pressure of work at times leading to more or less delay, the delivery of Goods by any definite time cannot be guaranteed, but every effort will be made to meet the wishes of the customer. When orders cannot be despatched by Goods Train in time to meet customers' special requirements they will at the discretion of the Company be despatched by Passenger Train, *Carriage Forward*, and an allowance will be made equivalent to the cost of transit by Goods Train.

Telephone Orders.—An efficient staff of order clerks is kept in constant attendance for the purpose of receiving Customers' orders. Being provided with the morning quotations for Fish and other articles of daily consumption, they can give any information as to most seasonable goods, etc. Orders for luncheon received up to 10 o'clock for the immediate neighbourhood; other districts according to delivery. Fullest information will be given upon application to enquiry office.

Telephone No.: "Western One," 80 Lines (Day and Night).

An **All-Night Telephone Service** is in force at Harrods, and a special staff being in attendance ensures the reception of orders from Customers at any hour, Day or Night.

Telephone Orders received after business hours will be executed first thing on re-opening.

Telegraphic Orders.—To facilitate execution of Telegraphic Orders, Customers are advised to make use of the Departmental Initials and Number which are quoted throughout the Catalogue as far as possible.

Public Telephones.—These are provided in each Department for the use of Customers at the usual charge for public calls.

TELEGRAMS.—Customers sending Telegraphic enquiries respecting Purchases would save delay by naming the Goods that have been ordered, the words "Parcels," "Goods," etc., being altogether inadequate to afford any assistance in tracing or identifying them.

It would further greatly assist us if Customers would add Address when signing a Telegram of Enquiry.

Telegraphic Address: "EVERYTHING, LONDON."

EXPORT ORDERS.—Special attention is given to the execution and shipment of Export Orders to Customers abroad. Shipping instructions will be received and enquiries answered at the Export Office. See Export Price List and Rules.

ENQUIRY OFFICE.—This Office is intended not only to answer enquiries, but also to take note of complaints, and bring them under the notice of the Managing Director or General Manager. It is respectfully requested that any incivility or want of attention on the part of Employees be at once reported to the Managing Director or General Manager.

SALES.—Harrods hold two annual clearance sales with the object of disposing of the season's surplus stocks. They each last for one week, the Summer Sale during July and the Winter Sale during January.

BUSINESS ARRANGEMENTS

FREE CARRIAGE ARRANGEMENTS.

SCOTLAND, IRELAND and the CHANNEL ISLANDS.—Orders to the value of £2 and upwards subject to the list of exceptions on page 4, and furniture, are sent *carriage paid* to any Goods Station or Port with steamer communication; orders of less value than £2 will be sent *carriage forward.* NOTE:—Carriage to Ireland will not be paid on one order where the goods have to go to two or more addresses.

FURNITURE.—Carriage paid on orders value £2 and upwards to any railway station within 100 miles of Harrods; carriage paid on orders value £5 and upwards to any Railway Station in England and Wales; carriage paid on orders of £10 and upwards to any Railway Station or Port with Steamer communication in Scotland and Ireland.

DRAPERY GOODS.—Carriage is paid on all Drapery Goods without exception, to any Railway Station in the United Kingdom, or free to Customer's Address if by Parcels Post.

GOODS ON APPROVAL.—All Drapery Goods, except those of a delicate and fragile nature, may be sent on approbation to any part of the United Kingdom upon payment of a Deposit if an Account has not already been opened, and upon the understanding that Goods not approved will be returned "CARRIAGE PAID."

Return of Goods.—All Goods which are not satisfactory to Customers will be taken back or exchanged, except when they have been altered, or made to order, or have been worn, soiled, damaged, or are not seasonable.

When returning valuable goods customers should in all cases register them in order to ensure their safe arrival at Harrods. Town Customers must obtain a printed receipt from our carmen for any goods returned.

SPECIAL PACKAGES.—Cases and Crates for Furniture, Pictures, China, Glass, Toys, etc., are charged for and credited in full if returned in good condition, carriage paid. Groceries and provisions are packed in non-returnable Cases free of charge to customers. Customers when ordering goods frequently instruct that they be sent by Post, and, as it often occurs that the order is too large or too heavy, it is always as well to give the Rail address as well as the Post Town. Perishable orders arriving on Saturdays for Districts over 50 miles from London cannot be sent by Post to arrive the same day; such orders will be sent by Passenger Train.

EMPTIES.—RETURNED EMPTIES from the Country in all cases should be advised upon being sent off, and Credit Note will be posted when received at the Stores. Oil Casks to be returned to "Harrods Ltd., Oil Warehouse, Brompton Road, S.W." It is particularly requested, when empties are returned, that the name and address of sender be legibly written upon each package. A small charge is made for Jars, Bottles, Tins, etc. If returned in good condition will be allowed in full.

ADDITIONAL ORDERS.—Additional orders too late for inclusion with original order will be treated as separate orders, and if under 2/6 in value sent carriage forward.

STATION CLOAK ROOMS.—Parcels may be sent to the Cloak Room of any London Station and booked free of charge, provided the customer gives a reasonable time to admit our Vans Delivering the Goods by the time mentioned when ordering. Vans leave Harrods and arrive at the Station as under for Passenger Train traffic.

10.30 a.m.—G.W.R., S.E.R., L.C. & D.R., L.B. & S.C.R. 11 a.m.—L. & N.W.R., G.N.R., Midland, Great Central, Metropolitan, L. & S.W.R. 11.30 a.m.—G.E.R.

GOODS REPORTED MISSING.—All orders are most carefully checked before despatch, and where goods have apparently been omitted, a careful search in the straw or packing may respectfully be recommended, as invariably the goods are discovered to have been received but overlooked, and it frequently happens that goods are returned to us in the empty cases.

GOODS DAMAGED IN TRANSIT.—Should it be discovered that goods have been damaged, or articles stolen from packages during transit, Customers are advised to give information at once to the Station Master or Local Agent from whom the goods are received, thus affording an opportunity of inspecting the damaged goods. The Company, however, does not hold itself responsible for any damage or loss sustained after goods have been delivered to the Railway Company or Carrier.

PARCELS LEFT AT HARRODS.—The Directors reserve to themselves the right of opening any Parcels, Boxes, Bags, etc., which for any reason are forwarded to or left at Harrods, and in all cases where such are not taken away before the closing hour, whether locked or otherwise, they will be opened, and the Company will be in no way responsible for any damage which may be done to such Parcels, etc., or to their contents, by their being so opened.

GOODS LEFT FOR REPAIRS, etc.—The Company does not accept any responsibility in regard to any articles left for repair, alteration, or other purpose, and not taken away within six months, nor for any article valued above £2, unless such value has been declared when being entrusted to the Company.

MESSES, CLUBS, HOTELS, CONVENTS, SCHOOLS, ETC., are supplied on favourable terms, and in any quantities that may be found most convenient, thus preventing the necessity of incurring expense for local storage.

A SPECIAL LIST OF GOODS SUITABLE FOR THE ABOVE WILL BE FORWARDED UPON APPLICATION.

STATIONERY TAILORING TOYS

The General Departments at Harrods aim to supply everyday household and personal requirements to best advantage as regards quality, variety and price. That they succeed in doing so is demonstrated by the immense patronage enjoyed not only from customers who personally visit the Store, but from others in all parts of the Kingdom who entrust Harrods with the execution of their orders by post, making use of this General Price List for the purpose.

GEM AND JEWELLERY DEPARTMENT

A PUBLIC TELEPHONE IS PROVIDED IN THIS DEPARTMENT FOR CUSTOMERS' USE.

Jewellery, Watches, Clocks, Optical Goods.

The following goods will be found of great service to Country Customers, who may rely upon their instructions being attended to in the same manner as though a personal visit was made. The illustrations show only a small selection of the well-furnished stock. Where a visit is not convenient, intending customers are invited to forward a list of their requirements, when a suitable assortment of goods will be forwarded on approval, without risk or obligation to purchase.

In the event of any article selected being sold out and being unable to be replaced immediately, the nearest pattern of equal value will be substituted.

ALTERATIONS AND REPAIRS.

DIAMOND Mounting and JEWELLERY alterations and repairs expeditiously executed by first-class workmen. Estimates and designs submitted for Remounting and Remodelling Jewellery, bringing old Jewellery up-to-date and wearable, at reasonable cost. Old Jewellery bought for Cash or Exchange.

WATCHES AND CLOCKS repaired on the premises by a staff of competent workmen under the management of a full First-class Certificated Watchmaker. Chronometers, Repeaters and all kinds of complicated Watches have our very careful attention.

OPTICAL REPAIRS are given every attention and prescriptions accurately worked.

Estimates for Repairs free on request.

CLOCK WINDING AND REGULATING.

HARRODS undertake the winding and regulating of clocks within a radius of two miles of their establishment, on the following terms:—Any number of clocks not exceeding six in the same house, 21/- per annum; for each additional clock over six, 2/- per annum. For periods short of 12 months, a minimum charge of 21/- will be made. Special arrangements made for attending to clocks beyond above limit.

Every care is taken to ensure the accurate performance of all clocks wound by Harrods, but the correct timekeeping of clocks in a bad state of repair cannot be guaranteed. Such clocks we would, however, be pleased to clean and repair, giving estimates if required.

SPECIAL NOTICE.

Every care is taken of Watches, Clocks, Jewellery, left for Repair, Alteration, Re-mounting, etc., but the Directors will not hold themselves responsible for any damage done to very fragile goods, provided due care has been taken in the repair.

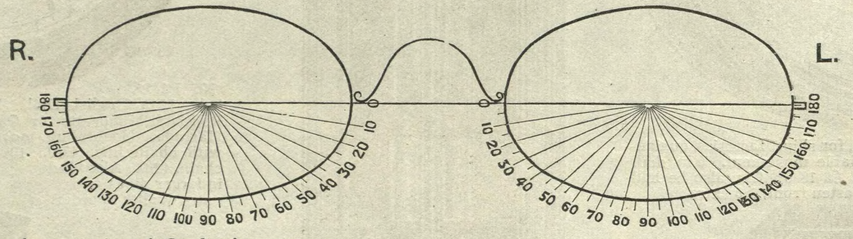
OPTICAL DEPARTMENT

This Department is under the care of an Experienced Optician who will test Customers' sight on scientific principles without charge.

The system employed is to test carefully each eye separately, whereby the exactness of vision is thoroughly determined.

The fitting of Frames is an important point of which we make a speciality, as very often as much inconvenience is caused by an ill-fitting Frame as by unsuitable Lenses.



Special attention given to the execution of Oculists' prescriptions.

In no case do we advise Spectacles unless they are necessary and beneficial.

A Register is kept of Customers' Sight for future reference, when desired. In case of loss, duplicates can be forwarded at once.

For the convenience of Customers residing at a distance and unable to visit Harrods, sets of trial lenses will be forwarded by post on receipt of a deposit of 21/0.

Special quotations furnished for any optical instrument not mentioned in this List.

All Optical Goods sold by us are of the best quality and description, and the prices are based upon a rate of profit which enables us to sell these goods at a low figure.

PRISMATIC BINOCULARS.

Prismatic Binoculars are made in two forms, one is focussed by adjustable Eye-pieces only' which has a divided scale, and the other has a wheel focussing movement, which is the most convenient form of adjustment; the latter is a much simpler way, and can be manipulated by ladies with the greatest of ease. The Eye-pieces in both Models can also be adjusted for differences of vision. With the index set at 0, persons with normal vision can distinguish distant objects sharply without strain.

BAROGRAPHS AND THERMOGRAPHS.

These Instruments, as shown in the illustrations, are most interesting to those who take note of atmospheric variations, as a complete record is given by a pen upon a printed chart for an entire week, and by its form the exact barometric reading can be seen at any moment, as well as the varying line traced by the pen for the time preceding. The charts also, which are changed at the commencement of each week, can be retained as a record for the entire year. Full descriptions and directions for use are supplied with each instrument.

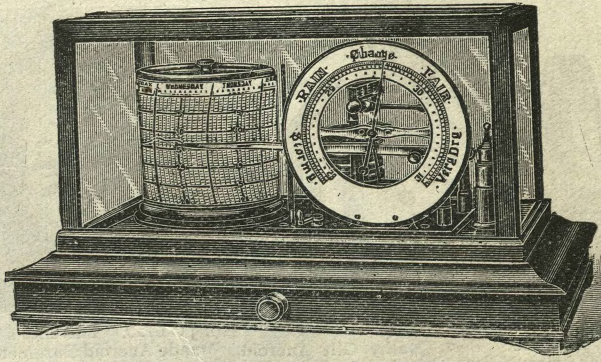
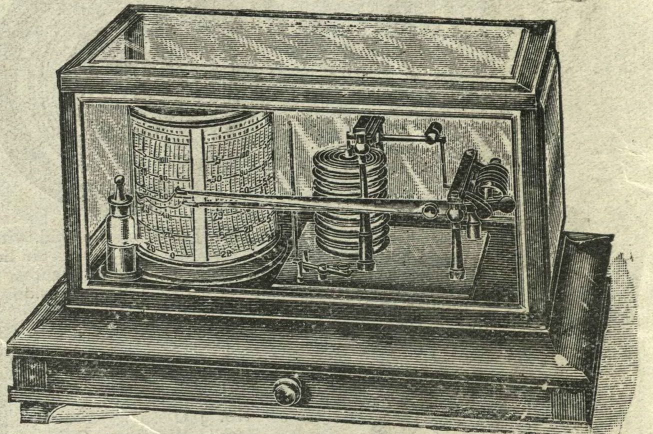
No. J O 6144. THERMOGRAPH.

This instrument is arranged and constructed for recording on a chart the maximum, minimum and varying changes of temperature which continually take place wherever it may be located. In Copper Case. Price £5 0 0



No. J O 6146. DIAL BAROGRAPH.

This instrument combines with the record of the Barograph Chart the dial readings of an ordinary Aneroid Barometer; both are actuated by the same movement of the pen upon the Chart and the hand on the Dial, giving the same indications. Oak, Walnut or Mahogany, with Bevelled Plate Glasses and Chart Drawer at base, with supply of charts for one year. Price £5 15 0



No. J O 6148.

The Baro-Thermograph is a similar instrument to the Barograph, with the addition of a Thermograph, which acts independently to the Barograph on the same chart, but in a different coloured ink. This addition makes it a most interesting instrument, which enables one to record the rise and fall of the Thermometer during the week, as well as that of the Barometer. Oak, Walnut or Mahogany, with Bevelled Plate Glass Cover, and supply of charts for one year, as illustration. Price £6 15 0

DIRECTIONS FOR USE. — Hook the Machine to any convenient object. Open Stropper as wide as possible to keep the Strop free from the clip. Insert the Blade in the clip and pull the Strop to and fro a few times. Stropping is an operation difficult to perform, as most shavers well know, and many devices have from time to time been introduced to render Stropping easy, but all these instruments have the great disadvantage that, although they in some measure sharpen a blade when first used, they soon leave a very undesirable blunt edge, because they are not capable of Stropping at the correct angle.

The WILKINSON MACHINE, as can be readily seen, overcomes this, and is recognised as the only Perfect Machine for Stropping Razors, giving precisely the same result as the highly skilled hairdresser. Price, **12/0**

The blades are as thin as paper, double-edged, and as tough and flexible as whalebone, and each is good for 15 to 30 shaves, after which the blade is renewed. No stropping or honing required. GILT AND FLORAL BACKS EXTRA.

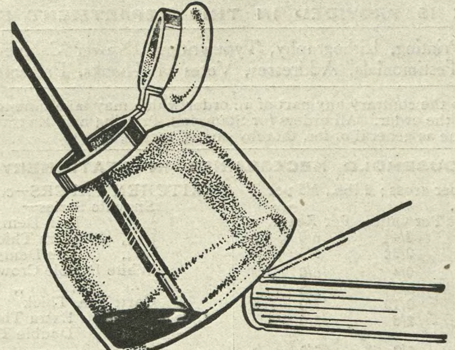
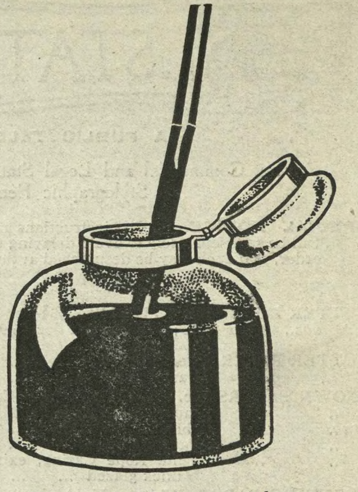
A dip every five seconds, and faint at that.



Ink is getting low, so you tilt the pot and wonder why the pen is dry.



Plenty of Ink here—right up to your fingers.

Inkpot Tragedies

SOME of them are shown here. But there are others. Get rid of Pen troubles once and for all. Get an Onoto Pen. It always gives you the right amount of ink, good clean ink, no dust, no "fishes." It is always on the spot, yet never makes a blot.

Get an ONOTO, the British made Self-Filling Safety Fountain Pen.

The Onoto is the satisfactory Pen, that fills **itself** in a flash from any ink supply—cleans **itself** in filling and CANNOT LEAK. It saves **about** 100,000 dips into the inkpot in a year and **writes** 20,000 words with one fill.

Onoto Pen

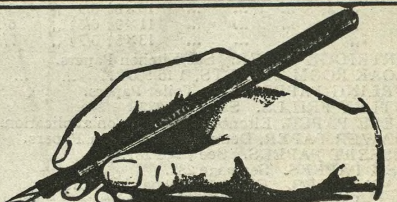
Safety Fountain



With the Onoto you get the right amount of Ink till the pen is quite empty.

SPECIAL NOTICE.

Japanese Umbrellas being made of paper require very careful handling, and HARRODS cannot be responsible for breakage and damage after delivery.

HARRODS point out that the sticks they receive from Japan for supporting the umbrellas are not strong enough for the purpose intended, therefore they make a special bamboo sufficiently long to enable it to go well into the ground, and fitted with a thumbscrew at top. Price 2/6 each.
